BOOK SYNOPSIS

Remember the housing bubble that collapsed in 2008? The causes look obvious in hindsight: easy credit overheated demand that led to unsustainably high prices with catastrophic results. The same thing is happening in college education. In *The College Myth*, Gene Kelly exposes higher education as an over-inflated bubble built on misinformation and debt. The truth is that college is not necessary to achieve success, and in many cases, it is an obstacle to success. The *College Myth* might just be the pin that bursts this bubble. In the 21st century, the sure-fire route to financial success is learning the trades. Kelly shows how colleges are failing our young people by not teaching them the skills that will be in-demand in the 21st century as the United States fixes its infrastructure, and instead piling debt on students while preparing them for “knowledge-worker” jobs that are disappearing fast.

THE COLLEGE MYTH WHY YOU SHOULDN'T GO TO COLLEGE IF YOU WANT TO BE SUCCESSFUL - Are you looking for Ebook *The College Myth Why You Shouldn't Go To College If You Want To Be Successful*? You will be glad to know that right now *The College Myth Why You Shouldn't Go To College If You Want To Be Successful* is available on our online library.
